

How to obtain a quote via the instant price route

Competitive. Compliant. Simple.

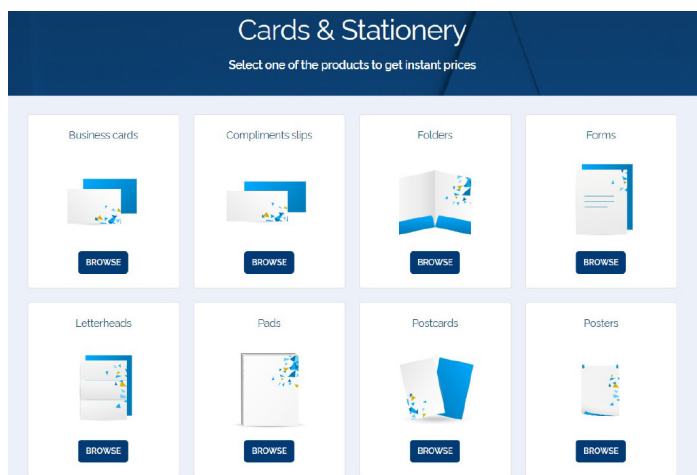

The product types below are those currently available for pricing via the instant quoting route within Print Marketplace

- Books, booklets & brochures
- Cards & Stationery
- Flyers & Leaflet

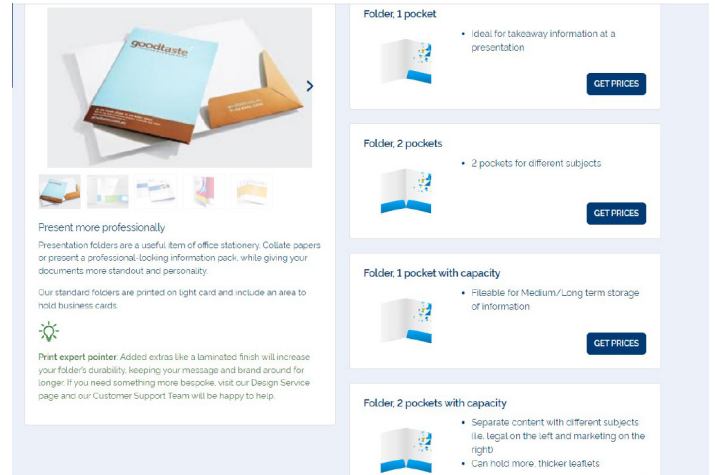

Select your product

Choose the most appropriate category based on your requirements. Within each of the three main categories, you will find further subsets of products that are applicable. E.g. within Cards & Stationery the most common types of stationery items e.g. business cards, forms, folders etc.

Select the type of item you require e.g. Folders and within the folder section, the most commonly ordered folder formats are available. Choose the format that meets your requirement by selecting the 'Get Prices' button.

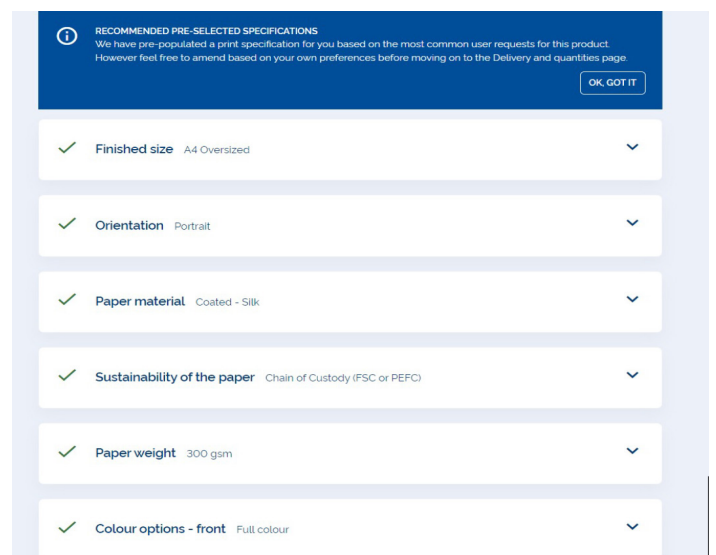

The Specification Journey

The next screen presented within the chosen product type is the specification.

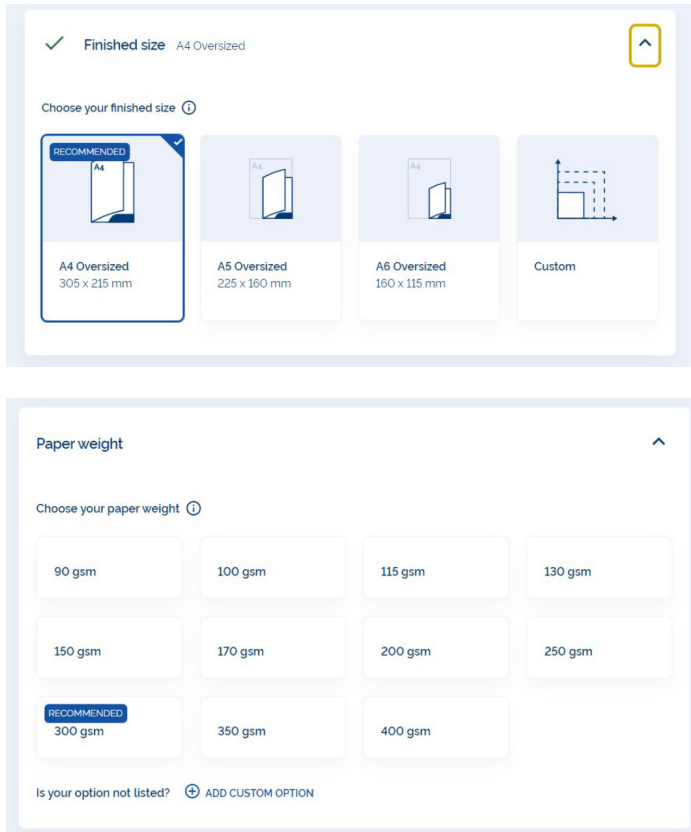

The Print Marketplace presents to the user, the recommended specification variables e.g. size, paper, paper weight and number of printed colours based on the product type. All the areas with a green tick denote that a valid specification is present within this field - this is to assist in presenting a valid print specification to the pricing engine that returns pricing from the Print Marketplace suppliers.

However, the user is free to make changes to the specification field based on their own preferences if required. Simply expand the field and change as required.

Name the Quote Request

The next steps are to complete the Product Details and name the quote request and assign to a folder if required.

All requests must confirm if the artwork contains content of a sensitive nature. If the answer is Yes, then the quote request will divert to the PMP Customer Support team, to establish the nature of the sensitivity, any additional steps required and they will liaise with the appropriate suppliers and provide pricing.

If the answer is No, then when the 'Request Quote' is selected, the specification will be submitted to the pricing engine.

Specification > Delivery and quantities > Product details

What is your product name?

What is your project name?

Does your artwork contain content of a sensitive nature? No Yes

PLEASE NOTE
We are unable to process orders designated as SECRET or TOP SECRET.

Quote Results

The pricing engine will return results very quickly from all PMP suppliers who are able to produce the specification required.

Results are returned in lowest price order first but can sorted and filtered by:

- Price
- Delivery miles
- CO2 equivalent value
- Lead time
- Production method

NB. All quotes returned are valid for up to 30 days.
